

DIRECTIONS FOR US:

Stir entire 16 oz. container well into 5 gallons of solvent or water based concrete coating. In order to maintain consistency during application, mix periodically.

FEATURES & BENEFITS

- Excellent Slip Resistance
- Good Chemical and Abrasion Resistance
- Can be added to a multitude of film forming coatings.

CON-CRETE GRIP

SURFACE GRIP

PRECAUTIONS

Although Surf-Grip is not a hazardous material, it should be treated as a nuisance dust when being mixed into a coating.

Refer to msds and technical data sheet prior to use.
